A close-up of a postage meter stamp. The stamp is a grid of numbers, likely representing postage values. The numbers are arranged in a roughly rectangular pattern, with some numbers appearing to be in a larger font or bolded. The numbers include 23, 22, 20, 19, 18, 17, 16, 15, 14, 13, 12, 11, 10, 9, 8, 7, 6, 5, 4, 3, 2, 1, and 0.

A close-up photograph of a hand holding a small, white card. The card features a grid of numbers arranged in a pattern that resembles a multiplication table. The numbers are printed in a bold, sans-serif font. The visible numbers include 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100. The hand is holding the card from the right side, and the card is slightly tilted.

## BRIDE

[illegible][illegible]

A close-up photograph showing a hand holding a pen, marking a grid of numbers on a document. The numbers are arranged in a grid, with some numbers like 20, 22, 24, 26, 28, and 30 visible. The hand is pointing at the number 22.

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | GIVEN NAME |      |      |        | MONTH | DAY    | YEAR |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | Patsi      | 10   |      | 22592  | Oct   | 7 1935 |      |

 BRIDE

1935

A close-up, black and white photograph of a document, likely a form or a ledger. The document features a grid of numbers, with the word 'FREE' visible at the top. The numbers are arranged in a pattern that suggests a sequence or a code. The image is slightly blurred, giving it a sense of being a candid shot or a detail from a larger scene.

## BRIDE

[illegible][illegible]

1935

A close-up of a postage stamp featuring a grid of numbers. The numbers are arranged in a 3x3 grid, with the top row containing 1, 2, 3, the middle row containing 4, 5, 6, and the bottom row containing 7, 8, 9. The stamp is partially obscured by a dark, textured surface.

1935

A close-up photograph of a white label with black text and numbers. The word "EFFECTIVE" is printed at the top. Below it are three rows of stylized, bold letters: "E", "F", and "T". Each letter has a small number next to it: "9" for E, "74" for F, and "35" for T. At the bottom, there is another row of stylized letters "E", "F", and "T" with numbers "2", "1", and "2" respectively.

A close-up photograph of a document, likely a form or a page from a book. It shows a grid of numbers, with the numbers 1 through 6 visible in the lower right corner. The numbers are arranged in a 2x3 grid. The numbers are 1, 2, 3, 4, 5, and 6. The numbers are printed in a bold, sans-serif font. The background is a light, textured surface.

A 5x5 grid of 25 grayscale calibration patches, each labeled with a number from 1 to 25. The patches are arranged in a grid that is slightly tilted to the right. The numbers are as follows:

|    |    |    |    |    |
|----|----|----|----|----|
| 1  | 2  | 3  | 4  | 5  |
| 6  | 7  | 8  | 9  | 10 |

The Micrographics Corporation

Certification of Residual Thiosulfate Level

On May 30, 1990, microfilm roll # 18307

New York Marriages

was tested for residual thiosulfate using the  
Methylene Blue Method for Measuring Thiosulfate  
as described in American National Standards  
Institute Standard IT 9.1. Results of the  
test indicate a residual thiosulfate level of

0.020 g S<sub>2</sub>O<sub>3</sub>/m<sup>2</sup>. This is within the archival  
limit of .014 g/m<sup>2</sup> specified for archival  
quality microfilm products.
